

Mohammad Raashid

raashid2341@gmail.com | +91 7006739797 | Kashmir, India

PROFILE

BCA student (IGNOU) and self-taught developer building toward a Cloud/DevOps career, with hands-on experience across AI application development (RAG, LLMs, LangChain, prompt engineering), full-stack development (MERN), and backend engineering (Java/Spring). Solved 300+ problems on LeetCode and built 35+ personal projects while learning independently from a remote village in Kashmir.

TECHNICAL SKILLS

Cloud & DevOps: AWS, Linux, Git & GitHub, Docker, CI/CD fundamentals

AI / LLM Engineering: Retrieval-Augmented Generation (RAG), LangChain, Large Language Models (LLMs), Prompt Engineering

Full-Stack (MERN): MongoDB, Express.js, React.js, Node.js

Backend / Java: Java, Spring Boot, Spring AI, PostgreSQL, Redis

Programming & DSA: Data Structures & Algorithms — 300+ problems solved on LeetCode

PROJECTS

AI Resume/Portfolio Chatbot

Personal Project | FastAPI, Python, PDF Parsing, LLM Integration

- Building a chatbot-driven personal portfolio backend using FastAPI that parses resume data and answers questions about the candidate's background.
- Implemented PDF text extraction pipeline (pypdf) feeding into an LLM-based Q&A layer.

The FinTech Gateway

Personal Project (in progress) | Spring Boot, Spring AI, Redis, PostgreSQL, Docker

- Designing a multi-tenant payment gateway with an AI-driven fraud detection guard.
- Architecture combines Spring Boot services, Spring AI for fraud scoring, Redis for caching, and PostgreSQL for transactional data.

MERN + AI Integration Projects

Personal Projects | MongoDB, Express.js, React.js, Node.js, LLM APIs

- Built multiple full-stack applications on the MERN stack integrated with AI/LLM features.
- Part of a broader portfolio of 35+ projects spanning full-stack and AI-integrated applications.

EDUCATION

Bachelor of Computer Applications (BCA)

IGNOU (Indira Gandhi National Open University) | In Progress

ACHIEVEMENTS

- Solved 300+ problems on LeetCode across data structures and algorithms.
- Self-taught developer, independently learning Cloud/DevOps, AI engineering, and full-stack development alongside formal studies.
